Experience

HubSpot | ***TypeScript, React*** Sept 2024 – Present
Senior Software Engineer

- Built core features for the marketing automation platform, enabling marketers to create multi-step workflows with delays, triggers, filters and customer-data actions
- Delivered AI-powered campaign performance summaries, helping marketers quickly understand results, identify top-performing content, and spot areas for improvement
- Designed and shipped a tracking-code validation tool that ran 2,861 tests across 1,746 URLs from 1,097 customer accounts. The feature received strong feedback and video coverage.
- Took over the tech lead role in their absence and mentored an intern; volunteered as in-office community lead, supporting office culture events.

Morgan Stanley | ***Java, Spring Boot, IBM DB2*** Jan 2021 – Aug 2022
Java Developer *Mumbai, India*

- Developed and maintained Spring Boot microservices for critical financial systems (Wire, Titan, Billing) serving hedge fund clients.
- Improved system efficiency by 83% by optimizing data handling and querying with indexing and hashing techniques
- Followed test-driven development, meeting high-availability and fault-tolerance standards.

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, SQL
Frontend: React, Vue.js, HTML, CSS, UI/UX Design
Backend & Data: Node.js, Spring Boot, Flask, MySQL, Oracle DB, IBM DB2, MongoDB, Firebase
Tools & DevOps: Docker, Kubernetes, Git, Jira, Swagger, JUnit, Mockito
AI Tools: Cursor (Claude Opus, Grok), Claude Code

Education

University of Sheffield Sep 2022 – Sep 2023
Master of Science in Advanced Computer Science *Sheffield, South Yorkshire*

- **Relevant Coursework:** Computer Security and Forensics; Testing and Verification of Safety Critical Systems

Amrita School of Engineering June 2017 – June 2021
Bachelor of Engineering in Computer Science — First class with distinction *Bengaluru, India*

- **Relevant Coursework:** Advanced DBMS; Object-Oriented Programming

Projects

Bird Sighting Web Application | *Node.js, JavaScript, MongoDB* Jan 2023 – Apr 2023

- Built a web application for recording and viewing bird sightings.
- Integrated the DBpedia knowledge graph to identify bird species, adapting to changing requirements and team feedback.

Event Detection in Social Media Streams (Dissertation) | *Python* Jun 2023 – Sep 2023

- Analyzed Twitter data to categorize text and extract insights.
- Compared TF-IDF and Word2Vec representations and applied KMeans clustering (elbow method, PCA) and LDA/NMF topic modeling.

Social Engagements

Volunteer: Started an initiative to tutor underprivileged children | **Python Tutor**: Enactus Sheffield
Club Executive: Raaga, Amrita music club | **Attendee**: Sheffield Startup Summer
Hobbies: Reading, Ukulele, Singing, Sketching
